

Delight your guests with a seamless and engaging charging experience

Entice electric car owners to frequent your business locations and offer convenient charging with the Electric Vehicle (EV) Digital Charging Tower. The EV Digital Charging Tower is a self-service EV charging station integrated with a Samsung 55" full outdoor digital screen to display branding, advertising and information.

Key Features

Convenient Smart EV Charging

Convenient electric vehicle charging station with a 40a, 10kw charger to support charging for most electronic vehicles. The "smart" integrated technology features an App that measures power and voltage as well as the time a car started charging and the length of each charge.

High Visibility and Brightness Make Messages Easy to See

High 2,500-nit brightness, an auto brightness sensor that optimizes brightness, and 5,000:1 contrast ratio work together to deliver easily seen messages even in direct sunlight. Innovative anti-reflective Magic Glass helps cut glare, and Samsung's circular polarizing technology allows content to be easily viewed even while wearing polarized sunglasses.

Reliable in the Harshest Environments, 24/7

Samsung's OH55F displays feature a patent-pending steady cooling system with heat exchanger that allows them to withstand extreme temperatures of -22° F to 122° F without requiring a supplemental heating or cooling system. They're also IP56-certified, to withstand wind-driven dust, hose-driven water, rain, sleet, snow and corrosion.

Built-in digital signage media player and CMS platform

The 55" OH55F includes an embedded media player with a leading-edge digital signage CMS platform making it easy to display your message with instructional information, all in your branding.

Digital advertising signage for maximum ROI

The EV charging station can provide an opportunity to maximize your ROI with programmatic advertising.

Fully Customizable Kiosk

The PDG kiosk can be fully customized with your choice of paint color, logos, decals and wraps to meet your branding needs.

Leverage Data Financial Professional Services

Data Financial provides dedicated comprehensive services and expertise to ensure a successful digital signage experience. From initial consultation through activation, we configure your displays and operational network to match your vision for success. All supported by our partners Samsung and Palmer Digital.

Solution Components

- 1 Samsung OH55F Full outdoor display with 3 Year Warranty
- 2 A complete scalable digital signage CMS platform, cloud based and easy to manage
- 3 Durable Palmer Digital kiosk constructed of 14 GA. and 12 GA. high impact steel
- 4 Pro 40a, 10kw charger
